WORK EXPERIENCE

Codeyani IT Solutions
Jun 2024 – Present
Junior Full Stack Software Engineer

- Enhanced performance and user experience of a legacy Laravel and Vue.js app by optimizing workflows and modernizing features.
- Conducted code reviews to ensure high-quality standards, improve maintainability, and reduce bugs in production.
- Enhanced application security by applying OWASP standards to safeguard confidential government data and mitigate vulnerabilities.
- Implemented Role-Based Access Control for user permission management, improving security and streamlining user management.
- Developed a logistics app using Laravel, Next.js, and React.js, streamlining workflows and improving operational efficiency.
- Leveraged AWS (S3, CloudFront, EC2) to enhance security, scalability, and optimize content delivery, reducing load times.
- Contributed to Agile sprints, improving project delivery times and streamlining development processes.
- Facilitated cross-team communication to accelerate technical issue resolution and improve problem-solving efficiency.

Erovoutika Electronics Robotics Automation
Mar 2024 – May 2024
Full Stack Web Developer Intern

- Built a dynamic Event and News CMS with HTML5, CSS3, JavaScript, jQuery, Bootstrap, PHP, and SQL to boost user engagement.
- Worked with UI/UX designers and frontend teams to ensure seamless design and functionality.
- Applied onsite SEO best practices, improving search visibility and driving organic traffic.
- Developed a responsive Web3 app frontend using Next.js, React.js, TailwindCSS, and TypeScript to enhance UI/UX.

EDUCATION

Polytechnic University of The Philippines
Bachelor of Science in Information Technology • Santa Rosa, Laguna   Oct 2020 – Oct 2024
